Baumhaus Berlin

What is Baumhaus Berlin?

Baumhaus Berlin is an independently run sustainable solutions design hub and event space designed and collaboratively built as an indoor tree house for people who want to act on their sense of initiative to make the world a better place by using their own talents, skills and interests in collaborative ways.

Baumhaus provides resonant space and intuitively understandable frameworks that facilitate meaningful and connective experiences. The core of our work and activities are based on the concept of bringing more dynamic regenerative balance into the world: personally, ecologically, aesthetically, culturally, economically and socially (p.e.a.c.e.s.).

Baumhaus hosts all kinds of events from celebrations to workshops, seminars, community gatherings and private space rental events to film screenings, co-working sessions, meditations and music events.

I am going to propose a broad strategy, some resonant perspectives and free tools that I hope you will find inspiring, empowering, practical, effective and easy to implement.

an idelogical basis for building authentic solidarity, a solidarity that we can each act on in our own chosen ways.

Dynamic Regenerative Balance

Lets start from our common question
How do we get the circular economy funded/normalized?

Who does the funding?

NGOs & government - slow, plus competing interests.

Institutional power moves when there's a popular, strong or immediate **motivation**.

Motivation from the masses = negative pressure to act

Student movements protesting & ousting leaders, the elections in Brazil, the midterms in America

Motivation from the masses = positive inspiration to act
Based on commonly shared understanding

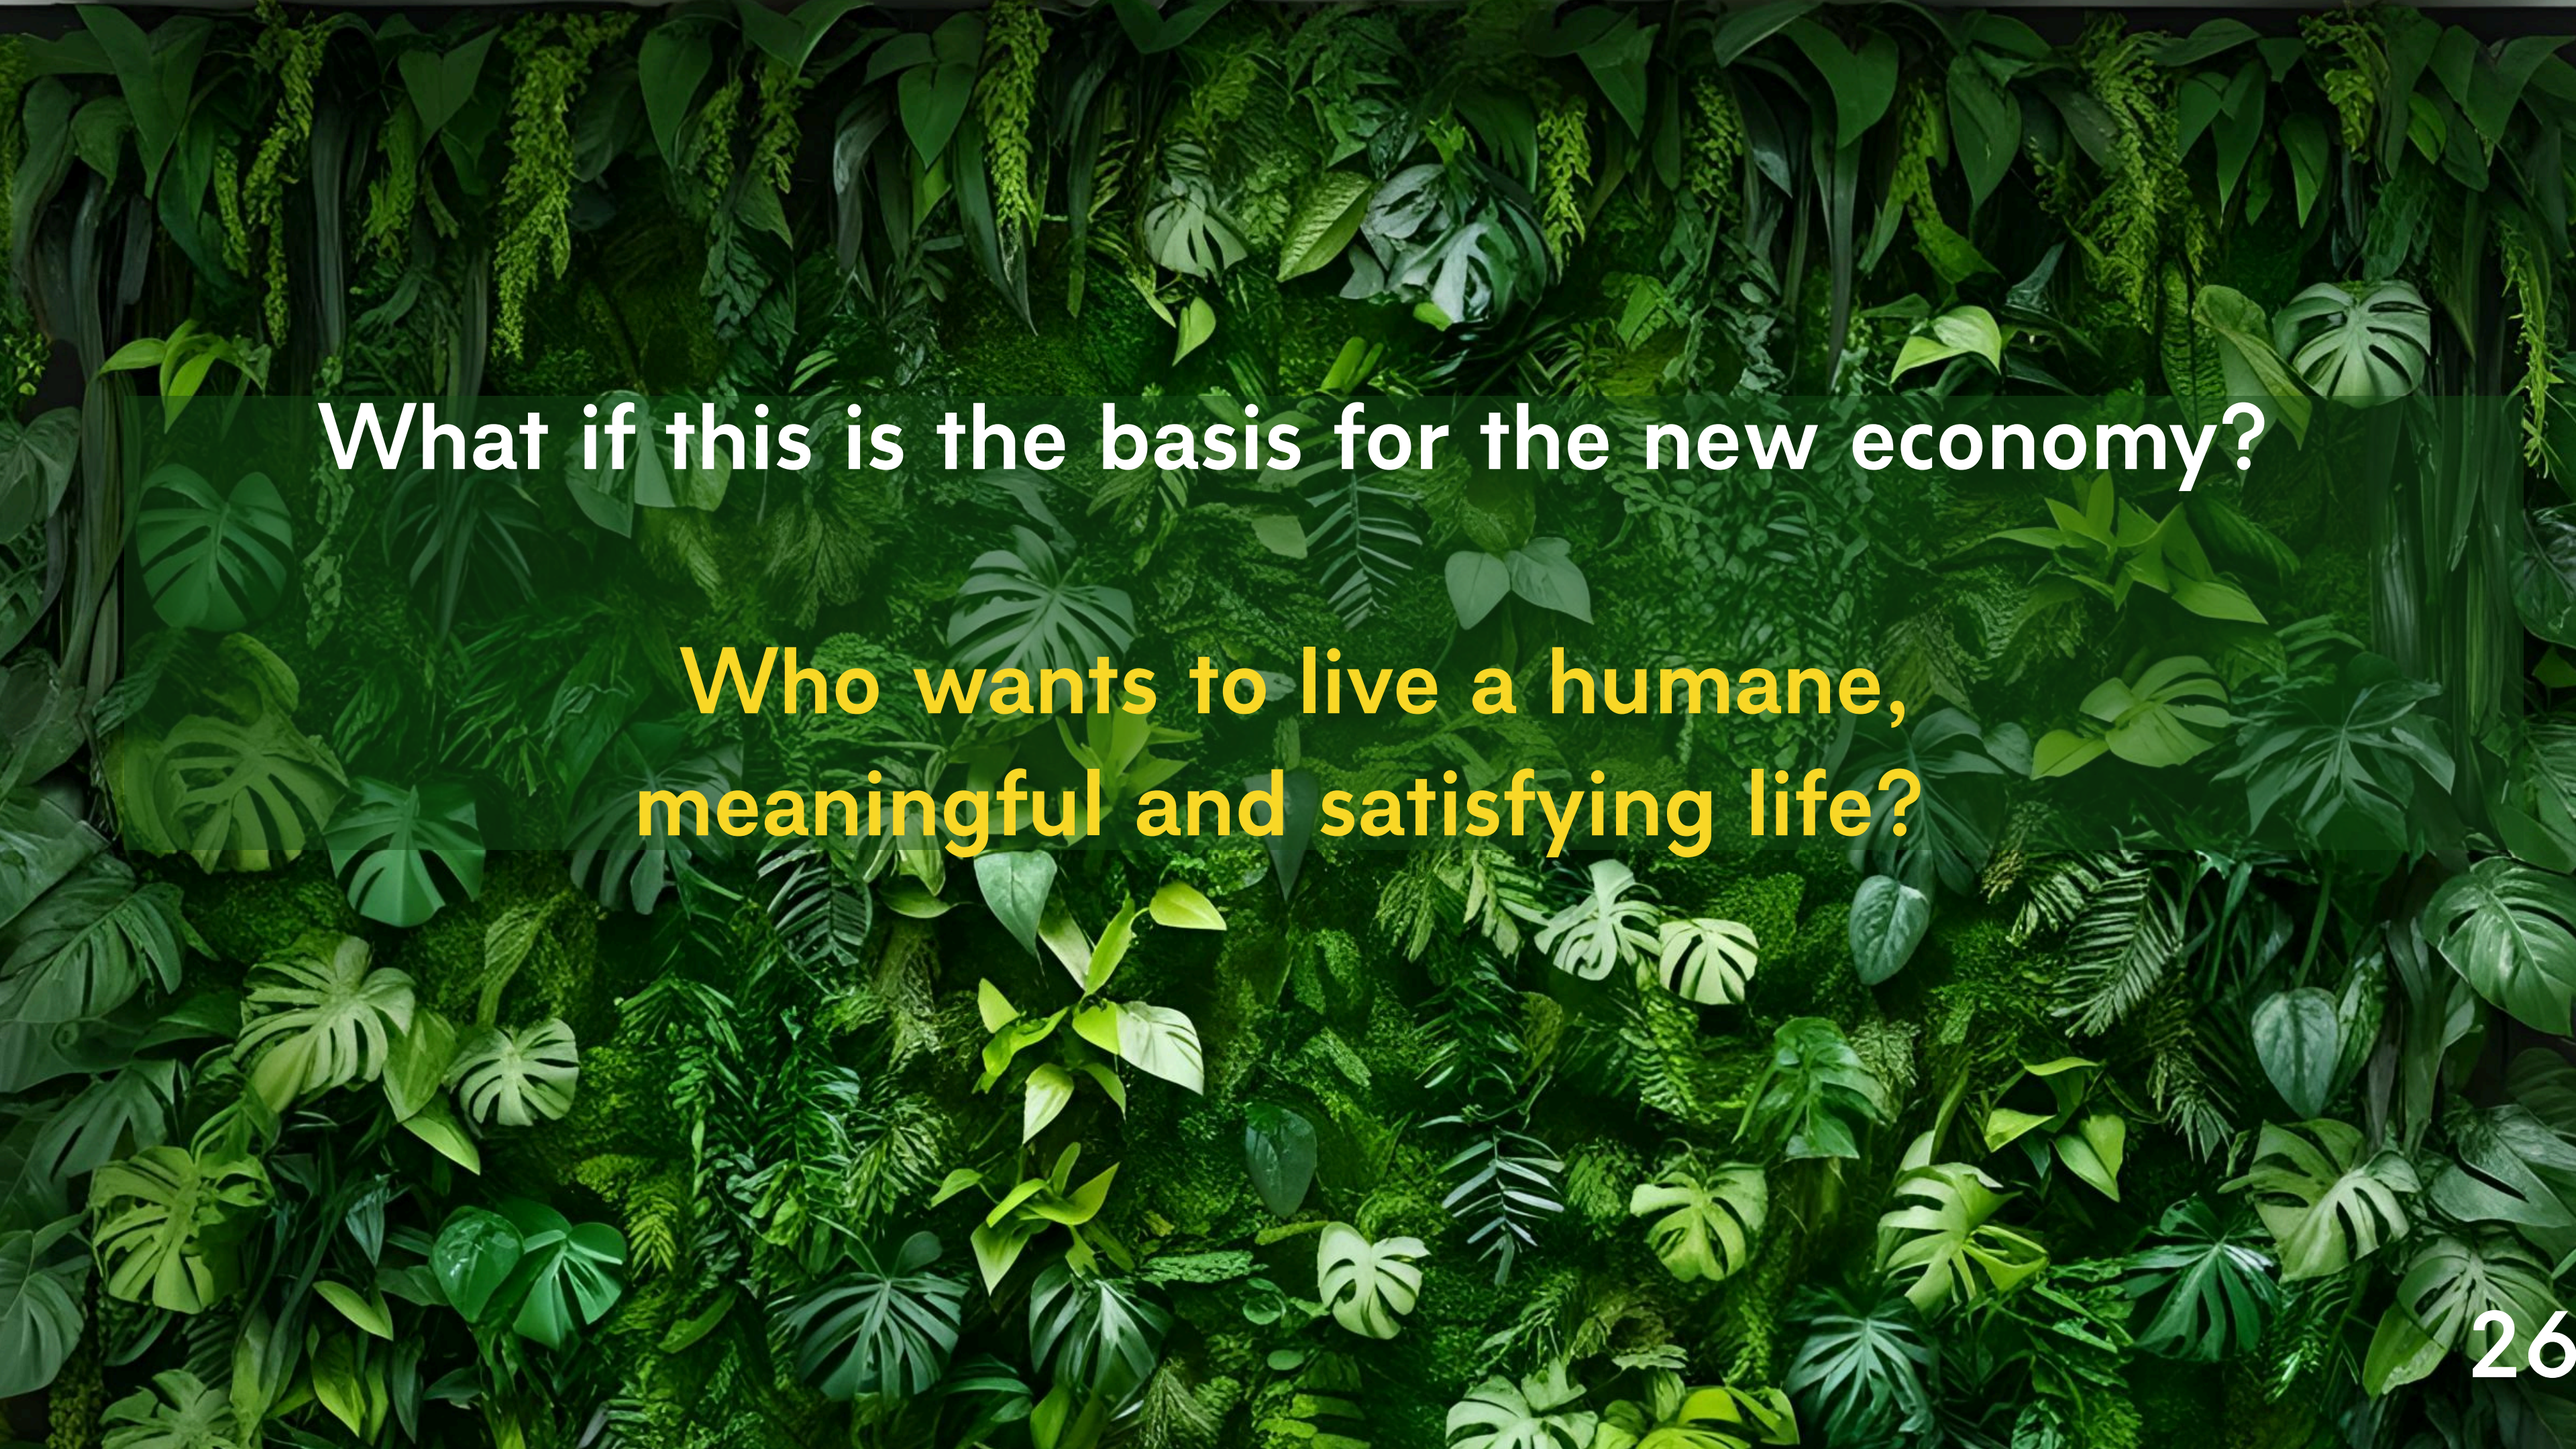

Motivation from the masses = positive inspiration to act

Social Evolution NOT Violent Revolution

A quick poll to establish some common ground:

A quick poll to establish some common ground:

Who wants to live a humane, meaningful and satisfying life?

What if this is the basis for the new economy?
Who wants to live a humane,
meaningful and satisfying life?

What if this is the basis for the new economy?

Everyone is encouraged to pursue living a humane, meaningful and satisfying life.

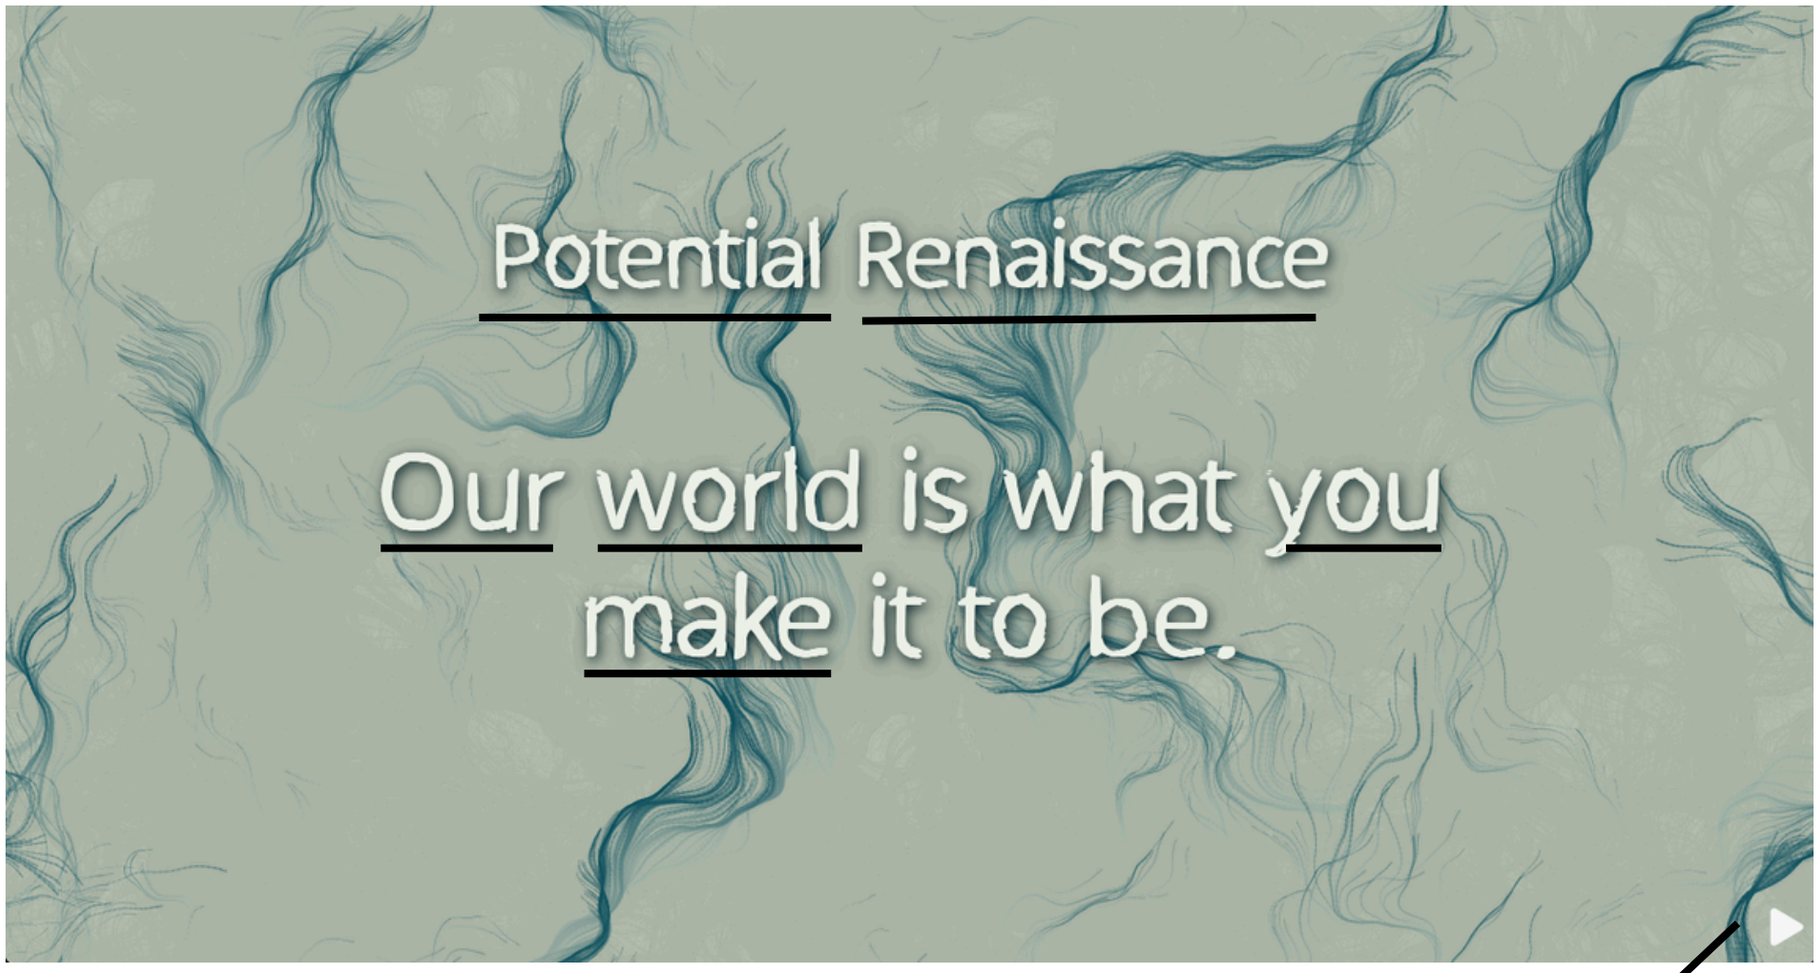

RULES:

Be in balance with yourself, each other and nature.

Free Tools

CONCEPT CATALYZER #1

This tool is good for when you don't have a clear idea of how you can use your talents, skills and passions to make the world a better place OR you want to develop some "outside the box" concepts.

• This is a randomized text animation consisting 2 words that make up a **title** and 9 words that make up a short sentence as **a sub-title** for a concept.

• When the cataylzer is first opened the 6 underlined words are variables and change randomly. Use the "play/pause" button in the lower right corner of the animation change modes.

• TAP any of the underlined words to change them. **Find a title and subtitle** that resonates with you or inspires you. Dream up and write down some scenarios **describing how to manifest your title and sub-title** into the world that use your skills, passions and talents.

CONCEPT CATALYZER #2

This tool is good for when you already have a clear idea of how you can use your talents, skills and passions to make the world a better place AND you want to refine or expand your impact.

• This is a randomized text animation consisting 6 words that can be read from left to right starting with top line for a concept.

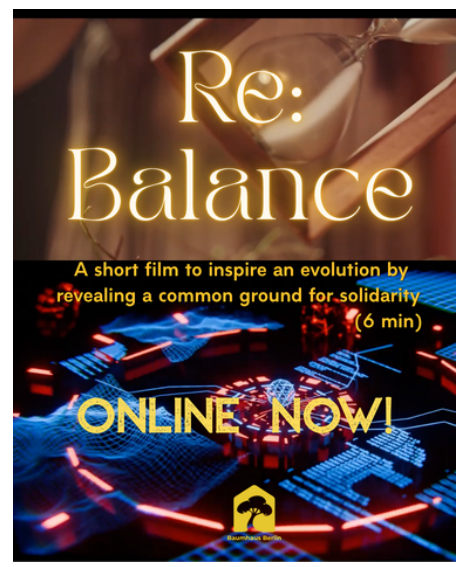

• When the cataylzer is first opened the 6 underlined words are variables and change randomly. Use the “play/pause” button in the lower right corner of the animation change modes.

• TAP any of the underlined words to change them. **Find a phrase** that resonates with you or inspires you. Dream up and write down some scenarios **describing how to manifest your phrase** into the world that use your skills, passions and talents.
